Goal/Federal Requirement/Key Finding	Original Application	Revision	Justification
<i>Example: Increased learning time</i>	<i>The school budgeted \$50,000 for the before and after school program mandatory for all students.</i>	<i>The school did not budget enough funds for the before and after school program for all students to attend. The school needs to add \$50,000 to fulfill all staff salaries.</i>	<i>In order for all students to attend the before and after school program for the 200 student days, the school will need to move funds from technology and supplies over to instruction to fulfill all staff salaries.</i>
creating community-oriented schools	Reduced funds in instruction/salary and benefits reduced funds for transportation salary and benefits, moved funds out of instruction/professional services,	\$500 Camera \$1000 for a school video studio and \$460 for equipment in STEM room	We are moving funds to accurately account for our spending toward the end of the grant year. We would like to give our students more opportunity to use camera and videos showcase the work they are doing. We would use a camera to share progress with our community and video equipment to have a green room for student produced video communication for the school.
Increase teacher effectiveness	Reduced funds in instruction/salary and benefits reduced funds for transportation salary and benefits, moved funds out of instruction/professional services,	\$300 in data equipment \$300 in data supplies	We are developing data folders and binders for each student and each classroom this year. We want to ensure that data is on demand and current with all students. Equipment and supplies will be used to develop the binders and folders.
Increase teacher effectiveness	Reduced funds in instruction/salary and benefits reduced funds for transportation salary and benefits, moved funds out of instruction/professional services,	\$3525 to get 3 teachers trained in Orton-Gillingham	Since we did not adopt an ELA textbook this year, we want to send 3 teachers to the OG training in September. We will use a train the trainer model for the remaining teachers not going to the training to ensure there is implementation fidelity across all grade levels.
